- 18.5 The Tender Security shall be payable promptly upon written demand by the Procuring Entity in case any of the conditions listed in sub-Clause 18.9 are invoked.
- 18.6 Any Tender not accompanied by a Tender security or Bid Securing Declaration in accordance with sub-Clauses 18.1 or 18.3 shall be rejected by the Procuring Entity as non-responsive, pursuant to ITT Clause 28.
- 18.7 Unsuccessful Tenderers' Tender Security will be discharged or returned as promptly as possible but not later than thirty (30) days after the expiration of the period of Tender validity prescribed by the Procuring Entity pursuant to ITT Clause 17. The procuring entity shall make no claim to the amount of the tender security, and shall promptly return the tender security document, after whichever of the following that occurs earliest:
- (a) the expiry of the tender security;
 - (b) the entry into force of a procurement contract and the provision of a security for the performance of the contract if such a security is required by the solicitation documents;
 - (c) the rejection by the procuring entity of all tenders;
 - (d) the withdrawal of the tender prior to the deadline for the submission of tenders, unless the solicitation documents stipulate that no such withdrawal is permitted.
- 18.8 The successful Tenderer's Tender Security will be discharged upon the Tenderer signing the contract pursuant to ITT Clause 41, and furnishing the performance security, pursuant to ITT Clause 42.
- 18.9 The Tender Security may be forfeited or the Bid Securing Declaration executed:
- a) if a Tenderer:
 - i) withdraws its Tender during the period of Tender validity specified by the Tenderer on the Form of Tender except as provided for in sub-Clause 17.2; or
 - ii) does not accept the correction of errors pursuant to sub-Clause 30.3; or

b) in the case of a successful Tenderer, if the Tenderer fails:

i) to sign the contract in accordance with ITT Clause 41; **or**

ii) to furnish performance security in accordance with ITT Clause 42.

18.10 A Tenderer shall be suspended from being eligible for tendering in any contract with the Procuring Entity for the period of time indicated in the Tender Securing Declaration:

(a) if the Tenderer withdraws its Tender, except as provided in sub-Clauses 17.2 and 30.2; or

(b) in the case of a successful Tenderer, if the Tenderer fails within the specified time limit to:

(i) sign the contract, or

(ii) furnish the required performance security

19. Alternative Tenders by Tenderers

19.1 Tenderers shall submit offers that comply with the requirements of the Tendering Documents, including the basic Tenderer's technical design as indicated in the specifications and Schedule of Requirements. Alternatives will not be considered, unless specifically allowed for in the **Tender Data Sheet**. If so allowed, sub-Clause 19.2 shall prevail.

19.2 When alternative schedule for delivery of goods is explicitly invited, a statement of that effect will be included in the **Tender Data Sheet** as will the method for evaluating different schedule for delivery of goods.

19.3 If so allowed in the **Tender Data Sheet**, Tenderers wishing to offer technical alternatives to the requirements of the Tendering Documents must also submit a Tender that complies with the requirements of the Tendering Documents, including the basic technical design as indicated in the specifications. In addition to submitting the basic tender, the Tenderer shall provide all information necessary for a complete evaluation of the alternative by the Procuring Entity, including technical specifications, breakdown of

prices, and other relevant details. Only the technical alternatives, if any, of the lowest evaluated Tenderer conforming to the basic technical requirements shall be considered by the Procuring Entity.

20. Format and Signing of Tender

- 20.1 The Tenderer shall prepare an original and the number of copies of the Tender indicated in the **Tender Data Sheet**, clearly marking each "ORIGINAL" and "COPY," as appropriate. In the event of any discrepancy between them, the original shall prevail.
- 20.2 The original and the copy or copies of the Tender shall be typed or written in indelible ink and shall be signed by the Tenderer or a person or persons duly authorized to sign on behalf of the Tenderer. This authorization shall consist of a written confirmation as specified in the **Tender Data Sheet** and shall be attached to the Tender. The name and position held by each person signing the authorization must be typed or printed below the signature. All pages of the Tender, except for un-amended printed literature, shall be initialed by the person or persons signing the Tender.

- 20.4 The Tenderer shall furnish information as described in the Form of Tender on commissions or gratuities, if any, paid or to be paid to agents relating to this Tender and to contract execution if the Tenderer is awarded the contract

D. Submission of Tenders

21. Sealing and Marking of Tenders

- 21.1 The Tenderer shall seal the original and each copy of the Tender in separate envelopes, duly marking the envelopes as "ORIGINAL" and "COPY." The envelopes shall then be sealed in an outer envelope securely sealed in such a manner that opening and resealing cannot be achieved undetected.
- 21.2 The inner and outer envelopes shall:
- a) be addressed to the Procuring Entity at the address given in the **Tender Data Sheet**; and
 - b) bear the Project name indicated in the **Tender**

Data Sheet, the Invitation for Tenders (ITT) title and number indicated in the **Tender Data Sheet**, and a statement: "DO NOT OPEN BEFORE," to be completed with the time and the date specified in the **Tender Data Sheet**, pursuant to sub-Clause 22.1.

- 21.3 In addition to the identification required in sub-Clause 21.2, the inner envelopes shall also indicate the name and address of the Tenderer to enable the Tender to be returned unopened in case it is declared "late" pursuant to ITT Clause 23 and for matching purpose under ITT Clause 24.
- 21.4 If all envelopes are not sealed and marked as required by sub-Clause 21.2, the Procuring Entity will assume no responsibility for the misplacement or premature opening of Tender.
- 21.5 If the outer envelope discloses the Tenderer's identity, the Procuring Entity will not guarantee the anonymity of the Tender submission, but this shall not constitute grounds for rejection of the Tender.
- 22. Deadline for Submission of Tenders**
- 22.1 Tenders shall be received by the Procuring Entity at the address specified under sub-Clause 21.2 no later than the date and time specified in the **Tender Data Sheet**.
- 22.2 The Procuring Entity may, in exceptional circumstances and at its discretion, extend the deadline for the submission of Tenders by amending the Tendering Documents in accordance with ITT Clause 9, in which case all rights and obligations of the Procuring Entity and Tenderers previously subject to the deadline will thereafter be subject to the new deadline.
- 23. Late Tenders**
- 23.1 The Procuring Entity shall not consider for evaluation any Tender that arrives after the deadline for submission of Tenders, in accordance with ITT Clause 22.
- 23.2 Any Tender received by the Procuring Entity after the deadline for submission of Tenders shall be declared late, rejected and returned unopened to the Tenderer.
- 24. Modification, Substitution and Withdrawal**
- 24.1 A Tenderer may modify or substitute or withdraw its Tender after it has been submitted, provided that written notice of the modification, including

of Tenders

modification, substitution or withdrawal of the Tender, is received by the Procuring Entity prior to the deadline for submission of Tenders.

- 24.2 The Tenderer's modification, substitution or withdrawal notice shall be prepared, sealed, marked, and dispatched in accordance with the provisions of ITT Clauses 20 and 21 with the outer and inner envelopes additionally marked "MODIFICATION" "SUBSTITUTION" or "WITHDRAWAL" as appropriate. The notice may also be sent by electronic mail, telex and facsimile but followed by a signed confirmation copy, postmarked not later than the deadline for submission of Tenders.
- 24.3 Tenders may only be modified by withdrawal of the original Tender and submission of a replacement Tender in accordance with sub-Clause 24.1. Modifications submitted in any other way shall not be taken into account in the evaluation of Tenders.
- 24.4 Tenderers may only offer discounts to or otherwise modify the prices of their Tenders by substituting Tender modifications in accordance with this Clause or included in the original Tender submission.
- 24.5 No Tender may be withdrawn, replaced or modified in the interval between the deadline for submission of Tenders and the expiration of the period of Tender validity specified by the Tenderer on the Form of Tender. Withdrawal of a Tender during this interval shall result in the Tenderer's forfeiture of its Tender security or execution of the Tender Securing Declaration, pursuant to the sub-Clause 18.9.

E. Opening and Evaluation of Tenders

25. Opening of Tenders

- 25.1 The Procuring Entity will open all Tenders including modifications, substitutions or withdrawal notices made pursuant to ITT Clause 24, in public, in the presence of Tenderers' or their representatives who choose to attend, and other parties with a legitimate interest in the Tender proceedings at the place, on the date and at the time, specified in the **Tender Data Sheet**. The Tenderers' representatives present shall sign a register as proof of their attendance.
- 25.2 Envelopes marked "WITHDRAWAL" shall be opened and read out first. Tenders for which an acceptable notice of withdrawal has been submitted pursuant to

ITT Clause 24 shall not be opened but returned to the Tenderer. If the withdrawal envelope does not contain a copy of the "Power of Attorney" confirming the signature as a person duly authorized to sign on behalf of the Tenderer, the corresponding Tender will be opened. Subsequently, all envelopes marked "MODIFICATION" shall be opened and the submissions therein read out in appropriate detail. Thereafter all envelopes marked "SUBSTITUTION" shall be opened and the submissions therein read out in appropriate detail.

- 25.3 All other envelopes shall be opened one at a time. The Tenderers names, the Tender prices, the total amount of each Tender and of any alternative Tender (if alternatives have been requested or permitted), any discounts, the presence or absence of Tender security, Tender Securing Declaration and such other details as the Procuring Entity may consider appropriate, will be announced by the secretary of the Tender Board or his delegate at the opening.
- 25.4 Tenders or modifications that are not opened and not read out at the Tender opening shall not be considered further for evaluation, irrespective of the circumstances. In particular, any discount offered by a Tenderer which is not read out at Tender opening shall not be considered further.
- 25.5 Tenderers are advised to send in a representative with the knowledge of the content of the Tender who shall verify the information read out from the submitted documents. Failure to send a representative or to point out any un-read information by the sent Tenderer's representative shall indemnify the Procuring Entity against any claim or failure to read out the correct information contained in the Tenderers Tender.
- 25.6 No Tender will be rejected at Tender opening except for late Tenders which will be returned unopened to the Tenderer, pursuant to ITT Clause 23.
- 25.7 The Procuring Entity shall prepare minutes of the Tender opening. The record of the Tender opening shall include, as a minimum: the name of the Tenderer and whether or not there is a withdrawal, substitution or modification, the Tender price per Lot if applicable, including any discounts and alternative offers and the presence or absence of a Tender Security or Tender Securing Declaration.

- 25.8 The Tenderers' representatives who are present shall be requested to sign the record. The omission of a Tenderer's signature on the record shall not invalidate the contents and affect the record. A copy of the record shall be distributed to all the Tenderers.
- 25.9 A copy of the minutes of the Tender opening shall be furnished to individual Tenderers upon request.
- 26. Confidentiality**
- 26.1 Information relating to the examination, clarification, evaluation and comparison of Tenders and recommendation of contract award shall not be disclosed to Tenderers or any other persons not officially concerned with such process until the award to the successful Tenderer has been announced.
- 26.2 Any effort by a Tenderer to influence the Procuring Entity processing of Tenders or award decisions may result in the rejection of its Tender.
- 26.3 Notwithstanding sub-Clause 26.2 from the time of Tender opening to the time of contract award, if any Tenderer wishes to contact the Procuring Entity on any matter related to the tendering process, it should do so in writing or in electronic forms that provide record of the content of communication.
- 27. Clarification of Tenders**
- 27.1 To assist in the examination, evaluation and comparison of Tenders and post-qualification of the Tenderers, the Procuring Entity may, at its discretion, ask any Tenderer for a clarification of its Tender including breakdown of prices. Any clarification submitted by a Tenderer that is not in response to a request by the Procuring Entity shall not be considered.
- 27.2 The request for clarification and the response shall be in writing or in electronic forms that provide record of the content of communication. No change in the prices or substance of the Tender shall be sought, offered, or permitted except to confirm the correction of arithmetic errors discovered by the Procuring Entity in the evaluation of Tenders in accordance with IIT Clause 30.
- 27.3 From the time of Tender opening to the time of Contract award if any Tenderer wishes to contact the Procuring Entity on any matter related to the Tender it should do so in writing or in electronic forms that

provide record of the content of communication.

28. Preliminary Examination of Tenders

28.1 Prior to the detailed evaluation of Tenders, the Procuring Entity will determine whether each Tender:

- a) meets the eligibility criteria defined in ITT Clause 3 and Clause 4;
- b) has been properly signed;
- c) is accompanied by the required securities; and
- d) is substantially responsive to the requirements of the Tendering Documents .

The Procuring Entity's determination of a Tender's responsiveness will be based on the contents of the Tender itself.

28.2 A substantially responsive Tender is one which conforms to all the terms, conditions, and specifications of the Tendering Documents, without material deviation or reservation. A material deviation or reservation is one that:-

- a) affects in any substantial way the scope, quality, or performance of the Services;
- b) limits in any substantial way, inconsistent with the Tendering Documents , the Procuring Entity's rights or the Tenderers obligations under the Contract; or
- c) if rectified, would affect unfairly the competitive position of other Tenderers presenting substantially responsive Tenders.

28.3 The Procuring Entity will confirm that the documents and information specified under ITT Clause 11, ITT Clause 12 and ITT Clause 13 have been provided in the Tender. If any of these documents or information is missing, or is not provided in accordance with the Instructions to Tenderers, the Tender shall be rejected.

28.4 The Procuring Entity may waive any minor informality, nonconformity, or irregularity in a Tender which does not constitute a material deviation, provided such waiver does not prejudice or

affect the relative ranking of any Tenderer.

28.5 If a Tender is not substantially responsive, it will be rejected by the Procuring Entity and may not subsequently be made responsive by the Tenderer by correction of the nonconformity.

29. Examination of Terms and Conditions; Technical Evaluation

29.1 The Procuring Entity shall examine the Tender to confirm that all terms and conditions specified in the General Conditions of Contract and the Special Conditions of Contract have been accepted by the Tenderer without any material deviation or reservation.

29.2 The Procuring Entity shall evaluate the technical aspects of the Tender submitted in accordance with ITT Clause 12, to confirm that all requirements specified in Section VI - Schedule of Requirements of the Tendering Documents and Section VII - Technical Specifications have been met without material deviation or reservation.

29.3 If after the examination of the terms and conditions and the technical evaluation, the Procuring Entity determines that the Tender is not substantially responsive in accordance with ITT Clause 28, it shall reject the Tender.

30. Correction of Errors

30.1 Tenders determined to be substantially responsive will be checked for any arithmetic errors. Errors will be corrected as follows:-

- a) if there is a discrepancy between unit prices and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected, unless in the opinion of the Procuring Entity there is an obvious misplacement of the decimal point in the unit price, in which the total price as quoted shall govern and the unit price shall be corrected;
- b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- c) where there is a discrepancy between the amounts in figures and in words, the amount in words will govern.

- 30.2 The amount stated in the Tender will, be adjusted by the Procuring Entity in accordance with the above procedure for the correction of errors and, with, the concurrence of the Tenderer, shall be considered as binding upon the Tenderer. If the Tenderer does not accept the corrected amount, its Tender will then be rejected, and the Tender Security may be forfeited or the Tender Securing Declaration may be executed in accordance with sub-Clause 18.9.
- 31. Conversion to Single Currency**
- 31.1 To facilitate evaluation and comparison, the Procuring Entity will convert all Tender prices expressed in the amounts in various currencies in which the Tender prices are payable to either:
- a) in Tanzania Shillings at the selling exchange rate established for similar transactions by the Bank of Tanzania or a commercial bank in the United Republic of Tanzania;
 - or**
 - b) a currency widely used in international trade, such as U.S. Dollars, at the selling rate of exchange published in the international press for the amount payable in foreign currency; and at the selling exchange rate established for similar transactions by the Bank of Tanzania in the United Republic of Tanzania for the amount payable in Tanzania Shillings.
- 31.2 The currency selected for converting Tender prices to a common base for the purpose of evaluation, along with the source and date of the exchange rate, are specified in the **Tender Data Sheet**.
- 32. Commercial Evaluation of Tenders**
- 32.1 The Procuring Entity shall evaluate and compare only the Tenders determined to be substantially responsive, pursuant to IIT Clause 28.
- 32.2 The Procuring Entity's evaluation of a Tender will exclude and not take into account:
- a) in the case of goods manufactured in the United Republic of Tanzania or goods of foreign origin already located in the United Republic of Tanzania, sales and other similar taxes, which will be payable on the goods if a contract is awarded to the Tenderer;
 - b) in the case of goods of foreign origin offered

from abroad, customs duties and other similar import taxes which will be payable on the goods if the contract is awarded to the Tenderer; and

- c) any allowance for price adjustment during the period of execution of the contract, if provided in the Tender.

32.3 The comparison shall be between the EXW price of the goods offered from within the United Republic of Tanzania, such price to include all costs, as well as duties and taxes paid or payable on components and raw material incorporated or to be incorporated in the goods, and the CIF named port of destination (or CIP border point, or CIP named place of destination) price of the goods offered from outside the United Republic of Tanzania.

32.4 In evaluating the Tenders, the evaluation committee will, in addition to the Tender price quoted in accordance with sub-Clause 15.1, take account of one or more of the following factors as specified in the **Tender Data Sheet**, and quantified in sub-Clause 32.5:

- a) Cost of inland transportation, insurance, and other costs within the United Republic of Tanzania incidental to delivery of the goods to their final destination.
- b) delivery schedule offered in the Tender;
- c) deviations in payment schedule from that specified in the Special Conditions of Contract;
- d) the cost of components, mandatory spare parts, and service;
- e) the availability in the United Republic of Tanzania of spare parts and after-sales services for the equipment offered in the Tender;
- f) the projected operating and maintenance costs during the life of the equipment;
- g) the performance and productivity of the equipment offered; and/or
- h) other specific criteria indicated in the **Tender Data Sheet** and/or in the Technical Specifications.

32.5 For factors retained in the **Tender Data Sheet** pursuant to sub-Clause 32.4, one or more of the following quantification methods will be applied, as detailed in the **Tender Data Sheet**:

- a) *Inland transportation from EXW/port of entry/border point, Insurance and incidentals.*

Inland transportation, insurance, and other incidental costs for delivery of the goods from EXW/port of entry/border point to Project Site named in the **Tender Data Sheet** will be computed for each Tender by the Procuring Entity on the basis of published tariffs by the rail or road transport agencies, insurance companies, and/or other appropriate sources. To facilitate such computation, Tenderer shall furnish in its Tender the estimated dimensions and shipping weight and the approximate EXW/CIF (or CIP border point) value of each package. The above cost will be added by the Purchaser to EXW/CIF/CIP border point price.

b) *Delivery schedule.*

- i) The Procuring Entity requires that the goods under the Invitation for Tenders shall be delivered (shipped) at the time specified in the Schedule of Requirements. The estimated time of arrival of the goods at the Project Site will be calculated for each Tender after allowing for reasonable international and inland transportation time. Treating the Tender resulting in such time of arrival as the base, a delivery "adjustment" will be calculated for other Tenders by applying a percentage, specified in the **Tender Data Sheet**, of the EXW/CIF/CIP price for each week of delay beyond the base, and this will be added to the Tender price for evaluation. No credit shall be given to early delivery.

or

- ii) The goods covered under this invitation are required to be delivered (shipped) within an acceptable range of weeks specified in the Schedule of Requirement. **No credit will be given to earlier deliveries, and Tenders offering delivery beyond this range will be treated as non-responsive.** Within this acceptable range, an adjustment per week, as specified in the **Tender Data Sheet**, will be added for evaluation to the Tender price of Tenders offering deliveries later than the earliest delivery period specified in the Schedule of Requirements.

or

- (iii) The goods covered under this invitation are required to be delivered (shipped) in partial shipments, as specified in the Schedule of Requirements. Tenders offering deliveries earlier or later than the specified deliveries will be adjusted in the evaluation by adding to the Tender price a factor equal to a percentage, specified in the **Tender Data Sheet**, of EXW/CIF/CIP price per week of variation from the specified delivery schedule.

c) *Deviation in payment schedule.*

- i) Tenderers shall state their Tender price for the payment schedule outlined in the SCC. Tenders will be evaluated on the basis of this base price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in Tender price they wish to offer for such alternative payment schedule. The Procuring Entity may consider the alternative payment schedule offered by the selected Tenderer.

or

- ii) The SCC stipulate the payment schedule offered by the Procuring Entity. If a Tender deviates from the schedule and if such deviation is considered acceptable to the Procuring Entity, the Tender will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the Tender as compared with those stipulated in this invitation, at the rate per annum specified in the **Tender Data Sheet**.

d) *Cost of spare parts*

- i) The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the **Tender Data Sheet**, is annexed to the Technical Specifications. The total cost of these items, at the unit prices quoted in each Tender, will be added to the Tender price.

or

- ii) The Procuring Entity will draw up a list of high-usage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the **Tender Data Sheet**. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Tenderer and added to the Tender price.

or

iii) The Procuring Entity will estimate the cost of spare parts usage in the initial period of operation specified in the **Tender Data Sheet**, based on information furnished by each Tenderer, as well as on past experience of the Procuring entity or other purchasers in similar situations. Such costs shall be added to the Tender price for evaluation.

e) *Spare parts and after sales service facilities in Tanzania*

The cost to the Purchaser of establishing the minimum service facilities and parts inventories, as outlined in the **Tender Data Sheet** or elsewhere in the Tendering Documents, if quoted separately, shall be added to the Tender price.

f) *Operating and maintenance costs*

Since the operating and maintenance costs of the goods under procurement form a major part of the life cycle cost of the equipment, these costs will be evaluated in accordance with the criteria specified in the **Tender Data Sheet** or in the Technical Specifications.

g) *Performance and productivity of the equipment.*

(i) Tenderers shall state the guaranteed performance or efficiency in response to the Technical Specification. For each drop in the performance or efficiency below the norm of 100, an adjustment for an amount specified in the **Tender Data Sheet** will be added to the Tender Price, representing the capitalized cost of additional operating costs over the life of the plant, using the methodology specified in the **Tender Data Sheet** or in the Technical Specifications.

or

(ii) Goods offered shall have a minimum productivity specified under the relevant provision in the Technical Specifications to be considered responsive. Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the Tender, and adjustment will be added to the Tender price using the methodology specified in the

Tender Data Sheet or in the Technical Specifications.

(h) *Specific additional criteria.*

Other specific additional criteria to be considered in the evaluation and the evaluation method shall be detailed in the **Tender Data Sheet** and/or the Technical Specifications.

32.6 If these Tendering Documents allow Tenderers to quote separate prices for different Lots, and the award to a single Tenderer of multiple Lots, the methodology of evaluation to determine the lowest evaluated Lot combinations, including any discounts offered in the Form of Tender, is specified in the **Tender Data Sheet**.

33. National Preference

33.1 If the **Tender Data Sheet** so specifies, the Procuring Entity will grant a margin of preference to goods manufactured in the United Republic of Tanzania for the purpose of Tender comparison, in accordance with the procedures outlined in subsequent paragraphs, provided the Tenderer shall have established to the satisfaction of the Procuring Entity that its Tender complies with the criteria specified in sub-Clause 13.3.

33.2 The Procuring Entity shall, in applying exclusive preference, use the Authority's register of tenderers to determine whether or not tenderers are qualified for exclusive preference.

33.3 A joint venture, consortium or an association between a foreign and local firm in which the contribution of the local firm in that joint venture or association is greater than sixty per cent, shall also be eligible to participate in the exclusive preference scheme.

33.4 The Procuring Entity will first review the Tenders to confirm the appropriateness of, and to modify as necessary, the Tender group classification to which Tenderers assigned their Tenders in preparing their Forms of Tender and Price Schedules, pursuant to ITT Clauses 14 and 15.

33.5 For the purpose of granting a margin of domestic preference, Tenders will be classified in one of three groups, as follows:

a) Group A: Tenders offering goods manufactured,

grown, mined or extracted within the United Republic of Tanzania, for which:

- (i) labor, raw materials, and components from the United Republic of Tanzania account for more than thirty (30) percent of the EXW price of the goods offered; and
- (ii) the production facility in which they will be manufactured, assembled or processed has been engaged in manufacturing, assembling or processing such goods at least since the time of Tender submission.

b) **Group B:** All other Tenders offering goods from within the United Republic of Tanzania.

c) **Group C:** Tenders offering goods from overseas which are to be directly imported.

33.6 All evaluated Tenders in each group will then be compared among themselves to determine the lowest evaluated Tender of each group. The lowest evaluated Tender of each group will next be compared with the lowest evaluated Tenders of the other groups. If this comparison results in a Tender from Group A or Group B being the lowest, it will be selected for contract award.

33.7 If, as a result of the preceding comparison, the lowest evaluated Tender is from Group C, all Group C Tenders will then be further compared with the lowest evaluated Tender from Group A, after adding to the evaluated Tender price of the imported goods offered in each Group C Tender, for the purpose of this further comparison only:

- a) the amount of customs duties and other import taxes that a nonexempt importer would have to pay for the importation of goods offered in each Group C Tender;
- or**
- b) fifteen (15) percent of the CIF (or CIP border point or CIP named place of destination, as the case may be) Tender price of such goods, if the customs duties and taxes exceed fifteen (15) percent of the CIF (or CIP border point or CIP place of destination) price of such goods.

33.8 If the Group A Tender in the further comparison is the

lowest, it will be selected for award. If not, the lowest evaluated Tender from Group C, as determined from the comparison under sub-Clause 33.5 above, will be selected for award.

- 34. Determination of Lowest Evaluated Tender** 34.1 The Tender with the lowest evaluated price, from among those which are eligible, compliant and substantially responsive shall be the lowest evaluated tender.
- 35. Post-qualification of Tenderer** 35.1 After determining the lowest-evaluated tender, the Procuring Entity shall carry out the post-qualification of the Tenderer using only the requirements specified in the **Tender Data Sheet**.
- 35.2 Where the tender price of the lowest evaluate tenderer is considered to be abnormally low, the Procuring Entity shall perform price analysis as part of the post-qualification. The following process shall apply:
- (a) The Procuring Entity may reject a tender if the Procuring Entity has determined that the price in combination with other constituent elements of the tender is abnormally low in relation to the subject matter of the procurement (scope of works or services) and raises concerns as to the ability of the tenderer that presented that tender to perform the contract.
 - (b) Before rejecting an abnormally low tender the procuring entity shall: request the tenderer an explanation of the tender or of those parts which it considers contribute to the tender being abnormally low; take account of the evidence provided in response to a request in writing; and subsequently verify the tender or parts of the tender being abnormally low.
 - (c) The decision of the Procuring Entity to reject a tender and reasons for the decision shall be recorded in the procurement proceedings and promptly communicated to the tenderer concerned;
 - (d) The Accounting Officer (Procuring Entity) shall seek the approval of the Authority prior to rejecting a tender;
 - (e) Neither the Authority nor the Procuring Entity shall incur liability solely by rejecting

abnormally tender; and

- (f) An abnormally low tender means, in the light of the Procuring Entity's estimate and of all the tenders submitted, the tender appears to be abnormally low by not providing a margin for normal levels of profit.

- 35.3 The Procuring Entity will determine to its satisfaction whether the Tenderer that is selected as having submitted the lowest evaluated responsive Tender is qualified to perform the contract satisfactorily, in accordance with the criteria listed in sub-Clause 13.3.
- 35.4 The determination will take into account the Tenderer's financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the Tenderer's qualifications submitted by the Tenderer, pursuant to sub-Clause 13.3, as well as such other information as the Procuring Entity deems necessary and appropriate. Factors not included in these Tendering Documents shall not be used in the evaluation of the Tenderers' qualifications.
- 35.5 A Procuring Entity may seek independent references of a tenderer and the results of reference checks may be used in determining award of contract.
- 35.6 In case of a foreign company, a Procuring Entity shall seek independent reference of legal existence of a tenderer from Tanzania diplomatic missions abroad or from any other reliable source.
- 35.7 An affirmative determination will be a prerequisite for award of the contract to the Tenderer. A negative determination will result in rejection of the Tenderer's Tender, in which event the Procuring Entity will proceed to the next lowest evaluated Tender to make a similar determination of that Tenderer's capabilities to perform satisfactorily.

F. Award of Contract

36. Criteria of Award

- 36.1 Subject to ITT Clause 35 and 37, the Procuring Entity will award the Contract to the Tenderer whose Tender has been determined to be substantially

responsive to the Tendering Documents and who has offered the lowest Evaluated Tender Price, provided that such Tenderer has been determined to be:

- a) eligible in accordance with the provisions of ITT Clause 3;
- b) is determined to be qualified to perform the Contract satisfactorily; and
- c) successful negotiations have been concluded, if any.

36.2 If, pursuant to sub-Clause 13.4, this Contract is being let on a "slice and package" basis, the lowest evaluated Tender Price will be determined when evaluating this Contract in conjunction with other Contracts to be awarded concurrently, taking into account any discounts offered by the Tenderers for award of more than one Contract.

37. Negotiations

37.1 Negotiations may be undertaken with the lowest evaluated Tender relating to the following areas:

- (a) a minor alteration to the technical details of the statement of requirements;
- (b) reduction of quantities for budgetary reasons, where the reduction is in excess of any provided for in the solicitation documents;
- (c) a minor amendment to the special conditions of Contract;
- (d) finalizing payment arrangements;
- (e) delivery arrangements;
- (f) the methodology; or
- (g) clarifying details that were not apparent or could not be finalized at the time of tendering.

37.2 Where single source method was used or a competitive procurement method was used but only a single tender was received, negotiations may relate to other areas of the tender including the price tendered provided that the negotiation shall not increase price or affect the quality of the Goods.
